

In the oldest book in the Bible, Job 38:32 (2150 BC), considered by many to be the oldest book in human history, there is the reference to the Mazzaroth (Hebrew for constellations of the Zodiac--Job 38:32), as well as several constellations. Zodiac means *the way*, or *the path*, in Hebrew, and also in Sanskrit. In other words, a picture of the way of salvation.

In all the ancient nations, the *same* 12 constellations, in the *same* order, with the *same* pictures, are referenced as far back in antiquity as we can go. There must be a common source.

It has been pointed out by scholars, and historians like Josephus, that the common source for the Zodiac is God's Gospel, given to Adam and Eve, and passed down through the generations of Noah, to the 70 nations. In the Arabic tradition, these signs in the heavens are said to have come from Seth and Enoch, again going back to the very beginning of creation. Genesis 1:14 says God gave us the stars for signs, as well as for seasons. Each tribe had a standard of one of the constellations (see also Rev 12:1). Twelve constellations, 12 tribes. God named the stars (Psalm 147:4, Isa. 40:26). But, it is also noted that God's Gospel story in the Heavens has been perverted, just as the Bible today is perverted by many. The term "seventh heaven," used by Islam and many others, refers to the five planets, the sun, and the moon, each forming a crystal sphere, with the earth at the center (this actually came from the second century, Ptolemy). The Bible refers to a "third heaven" – 2 Cor. 12:2.

When one looks at the Zodiac, one may question where to start this story in the heavens, because all the constellations are in a circle. By going to the oldest Zodiacs, one of which is found in the Egyptian Temple of Esneh (4,000 or more years old), the Sphinx pictured there points out where to start. The Sphinx *head* is toward *Virgo*, the virgin, and the *tail* toward *Leo*, the lion. Modern astrology has perverted the Zodiac, and changed it to now begin with Aries, the lamb. Today, we have lost God's story of salvation in the Zodiac. But, there are still plenty of God's messages for us in the names of the stars and constellations, as these names have survived, even though the exact story has not.

1 VIRGO The Virgin – Tribe Zebulon - with a *branch* in her right hand (Isa. 4:2, 7:14, Zech. 3:8, 6:12). Brightest star – Spica – meaning *branch* in Hebrew & Arabic, *seed* in Egyptian. *Branch* is the name for the Messiah (Jesus).
